Oddo India Finalist

SKILLS

Nest Js | TypeScript | GraphQL | Next JS | Solidity | Web3.js | Ether.js | JavaScript | C | C++ | Python | Java | Public Speaking | Leadership | Cultural competence | Digital Marketing

PROJECTS

Brainwave

Developed a Notion-inspired note-taking application with features like creating, editing, and deleting notes. Designed for seamless organization and productivity.

Decentralized Crowdfunding DApp

Built a blockchain-based crowdfunding platform that connects with MetaMask, allowing users to create and manage fund campaigns securely on the Ethereum network.

MarkChain

Ongoing

A decentralized, secure, and privacy-preserving system for internal exam marks distribution using Self-Sovereign Identity (SSI), where faculty can issue verifiable digital credentials and students can receive and store their marks in a personal digital wallet.
